

KLEENGUARD* Brand Eye Protection

See the difference comfort can make in eye protection

KLEENGUARD* Brand Eye Protection

See the difference comfort can make in eye protection

Sometimes the only thing standing between you and a serious industrial accident is your eye protection

That's why you need KLEENGUARD* Brand Eye Protection with all the added features for comfort and flexibility. KLEENGUARD* Protective eyewear is designed for protection against flying particles, dusts. Polycarbonate lens makes protective eyewear light weight and comfortable to wear. It's easy to see why more workers wear it for protection and want it for comfort, flexibility and style

Proven Impact Protection

KLEENGUARD* Protective Eyewear offers a variety of options that meets the ANSI Z87.1 + and EN 166 standards.

Added Comfort and Flexibility

Our State-of-the-art eyewear design includes wraparound lenses, flexible temples, padded nose bridges and other features to enhance your comfort and job performance

Wide Selection of Lens Type

Choose from Smoke, Amber, Clear, Clear Anti-Fog, Silver Mirror, Indoor-Outdoor, the lens type that best meets your individual work requirements and style preference

Smoke - Choose this lens for bright, sunny days for maximum glare reduction. Ideal for applications where eyestrain is a concern.

Amber - Ideal for low-light environments where contrast is low. Blocks out blue light to highlight and define shapes

Clear - Choose this lens for maximum visible light transmission, ideal for indoor application

Clear, Anti-Fog - Choose this lens to help prevent fogging in high humidity environments or when temperature shifts happen suddenly

Silver Mirror - Reflective coating is great for outdoors where very bright sunlight and glare can cause eyestrain and fatigue.

Indoor/Outdoor - Light tinting for moving comfortably between indoor/shaded areas to direct sunlight and back.

KLEENGUARD* Brand Eye Protection :

- Provides limited eye protection. Additional protective devices are required for full eye coverage and protection.
- Does not protect you from all hazards. Even though the lenses in these safety glasses are impact resistant, they can break and shatter and will not protect you from explosions, all flying debris, and severe impacts.
- Should not be worn to provide protection from other hazards including, but not limited to extreme temperatures, high heat, airborne dusts or mists, liquid splashes, sports activities and high energy optical radiation.
